

BOND ISSUE ASKED

CONGRESS URGED TO PROVIDE \$130,000,000 EXTRA TO MEET MEXICAN BILLS.

TO LAST ONLY THIS YEAR

Additional Funds Requested in Report of Finance Committee Filed in Senate on \$205,000,000 Revenue Bill.

Washington, Aug. 18.—A bond issue of \$130,000,000 to meet extraordinary government expenditures due to the Mexican situation was unexpectedly recommended to congress on Thursday night by majority members of the senate finance committee, with the concurrence of the treasury department.

The bond issue is urged in the report of the finance committee Democrats, filed in the senate on the \$205,000,000 revenue bill. In addition to the proposed issue and the revenue bill the finance committee suggests a further appropriation of \$50,000,000 will be necessary to defray the expense of operations in the Mexican emergency if conditions on the border continue as they are now after December 31, 1917. The \$130,000,000 to be provided by the proposed bond issue, the report says, will meet Mexican expenditures only until the end of this calendar year.

Accompanying the finance committee majority report submitted by Senator Simmons was a general statement from the treasury department, estimating disbursements for the fiscal year 1917 at \$1,232,243,000 and surplus \$702,000,000.

SIAM WON'T FIGHT THE U. S.

Mistaken Brother of King for Jap—Attempted to Enter Honolulu Without Showing Papers.

San Francisco, Aug. 18.—Prince Mahidol Sankha, brother of the king of Siam, who has arrived here from the far East, was mistaken for a Japanese at Honolulu and roughly handled, he said, by a United States customs officer. Minister Karavangue of Siam, who came here from Washington to meet the prince, declared he would take the matter up through the state department.

"But don't be disturbed," the prince said when the minister expressed his indignation. "We will not declare war over this. It was a mistake and I hope my assistant will not lose his position. I was rescued by my fellow passengers."

The prince said that he went ashore at Honolulu from the Tenzu Maru and was stopped by a customs inspector, who said Japanese were not allowed ashore before their papers had been examined.

"He refused to listen to my explanation of who I was, turned a deaf ear to my declaration that I had papers to establish my identity and suddenly attacked me with his fists, of which he made good use. I was wedged between two women and could not defend myself for fear of hurting them."

THE ROAD TO WORK

After Your Two Weeks Vacation.

RUSS NEAR LEMBERG O. K. NAVAL PROGRAM

SLAVS CAPTURE ZBOROV AND PUSH LINES WEST. EIGHT CAPITAL SHIPS ARE VOTED BY THE HOUSE.

Left Wing is Near Halicz—Town of Tustobaby Taken After Fierce Fighting.

London, Aug. 18.—Capturing the town of Zborov, on the Strypa, General Sakharoff, commanding the right wing of the Russian armies in Galicia, pushed his lines within 49 miles of Lemberg, the Austrian crownland's capital.

At the same time the Russian left wing, commanded by General Letichsky, closing in on the fortified railway city of Halicz, took Tustobaby, less than 15 miles northeast of its objective. Tustobaby, which lies on the west bank of the Zlota Lipa, was stubbornly defended to the last by the Austro-German forces who are trying with might and main to retard the Russian advance in order to save the bulk of the Austrian throne-helm's army from envelopment. The town was taken "in spite of terrific machine gun fire," the official Petrograd statement says.

The capture of Zborov was preceded by a counter-attack by the forces under General Bessonov, which are defending the Tenson Strypa front. The official Austrian statement says the Russians were repulsed at Zborov (Iberov) and 30 prisoners were made. This statement was issued, however, prior to Petrograd's announcement of the town's capture.

On the upper Strypa, according to official Russian admission in the afternoon report from Petrograd, the Austro-German forces "retired to a fortified position behind which at some points they are checking our advance by fierce artillery fire." Berlin reported officially the repulse, "in violent fighting," of two Russian divisions west of Stanislaw.

ADVANCE ON SOMME

ALLIES PENETRATE GERMAN TRENCHES TO A DEPTH OF 500 YARDS.

TWO TOWNS ARE FLANKED

Maurepas and Clerly, Important Points Held by the Germans, Are in Danger—Berlin Says Attacks Were Repulsed.

London, Aug. 18.—The French and British, striking with terrific force in three directions on the Somme front, have stormed nearly three miles of German trenches, driving forward at points to a depth of 500 to 550 yards.

The most important gains were made by the British and French troops striking north from the point where the allied lines meet. Maurepas and Clerly, two of the most important points held by the Germans in this sector, have been flanked on both sides, according to the official statement issued by Paris on Wednesday.

The road has also been reached between Maurepas and Guillemont, the latter town being the immediate objective of the British. This advance, if maintained, brings the allies directly in front of the large railroad town of Comblis.

South of the Somme the French stormed German trenches over a length of about three-quarters of a mile, driving forward in a southerly direction from Bellefontaine-Santerre. Paris reports that a considerable number of prisoners were taken in these operations.

Berlin, Aug. 18.—The British continued their fruitless attacks along the Thiéval-Fozieres line, but all attacks were repulsed. The German war office declared.

The official report says: "There was lively fighting southwest of Armentieres and in Artois. In the region of Pozieres the British continued their fruitless attacks. A night attack north of Ovillers failed. At Monin-Sous-fouvent, in the Aisne district, firing was temporarily revived by both sides. In connection with the artillery activity the French delivered a gas attack."

Mrs. Crist and her two children also went to the rescue, and all got into deep water. Daniel Daisel rescued Mrs. Crist, diving into the lake without removing even his shoes. He almost drowned in the attempt.

MORE DELAY FOR OHIO SOLDIERS

MUST NOW WAIT THE OUTCOME OF THE THREATENED RAILROAD STRIKE.

ALSO WAITING FOR SHOES

Fullman Cars in Columbus Awaiting Entrainment of State Militia Ordered Elsewhere.

Columbus, O.—Ohio troops will not be started to the Mexican border at once. There may be an indefinite delay in their departure. They will certainly not be started until every chance for a railway strike is removed. Communications were exchanged between the commanding officers of Camp Willis and the War Department with the result that for the second time, all orders for railway equipment to move the troops have been canceled.

There were enough sleepers in and near Columbus to have accommodated one regiment. Those in the city are now subject to orders for use elsewhere and those en route have been stopped and are not to be brought here now. War Department officials on duty at Camp Willis said today that the army is like uncommunicative. Later on, after some messages from the war department had been received there was a conference of regular army officers and camp officials and another conference was held down town. No announcement was made from any source after the conferences had been concluded.

An air of dense mystery surrounds Camp Willis and also the military headquarters at the state house. The men who over the camp heard the rumor that the state militia in Columbus was to be sent to the Mexican border for another indefinite period. Some of them read in the delay the admission that a railway strike was considered probable and still others understood it to mean the war department was merely playing the safe side of the game and intended to take no chances. There was real disappointment over the indicated delay, as the men had been fully convinced they were to be started to the front at once. Many had said good-bye to their friends, had packed their kits and were ready for the trip.

It developed that one baby had been passed along to four women, it having been announced that ice would be delivered to those who had babies. "Babies are as good as money," said the keeper of a bachelor's apartment.

How to Tell the Age of Sheep

Buying mature sheep is a good deal of a gamble to the inexperienced would-be flock owner. An old sheep may look well, but only last for a year or two of profitable service. After a sheep is past four years old the teeth do not show much change except where they drop out as old age draws near. Briefly stated, a sheep with one pair of permanent teeth is a yearling, two pairs, a two-year-old; three pairs, a three-year-old, and four pairs a four-year-old.—Farm and Fireside.

They Can't Get Away

A story the Atchison Globe tells on a local police judge: A man had been arrested for violating the speed regulations in his automobile, but proved that he was not violating the speed ordinance. In fact, he proved that his machine was out of order on the day he was arrested, and could not run faster than a man could walk. "I be lieve every word you say," said the judge to the defendant, "but the city needs money and I line you \$5 for loitering."—Kansas City Star.

EXPECTING 6000 STUDENTS

Ohio State May Not Break Its Record Because of Mobilization.

Columbus, O.—Dreams of a total registration of 6,000 at Ohio State university, which were expected to come true this year, have been shattered by the mobilization of the Ohio National Guard. It is thought, although at this early period no definite prediction of next fall's enrollment can be made by university officials. "It is hard to say how many boys will be forced to stay out of school and work next year because they could earn no money during vacation at Camp Willis," said Lester E. Wolfe, entrance committee chairman. "Several have written me for positions already. One boy told me he had a job which would pay him enough to come to school. The second day he worked he was called out."

Hundreds of university men are members of the guard. Company G of the Fourth infantry, is composed entirely of students. Their salary as members of the militia will not go far toward paying their college expenses. Summer school, with a total registration of 1,130—the record for attendance—closed Friday. As this enrollment was nearly 200 more than last year, it would have been comparatively easy to have reached the grand total of 6,000 this year, but for the mobilization. Last year, with less than 1,000 in summer school, the total attendance was 5,822. New Students, registered so far, total 524, exactly the same as this time last year. But it is among the older students that the big decrease is expected. The two new buildings, the shop and home economics buildings, which were expected to be completed in time for the beginning of school, will not be ready until November, it has been announced.

The new structure will include a large gymnasium, indoor tennis, swimming pool, an ice making plant, cafeteria, bowling alley, rest and home economics auditorium, and departments of the most modern equipment, a dining room to accommodate 300, and 150 bedrooms for the Fenwick Club and 100 for the Boys' Home. Summers, of Springfield, who has been expected to have command with Huron, Licking and Medina counties to report their returns. Vickery has 64,716, and Summers, 60,601. Huron and Medina are in territory favorable to Vickery, and Licking in a section where Summers might be expected to have command. It is believed that the returns will not affect the result produced by the present figures.

The new record in the governorship contest show that Rudolph A. Mack, of Norwalk, has passed the 30,000 mark, which fact will cause the payment of a large number of election wagers, as the betting was brisk that he would not attain that number of votes. Largest Barber Shop

Did you know that the largest barber shop in the state is located in Columbus? That it employs from 26 to 28 barbers? That they average 3,700 shaves and 450 hair cuts a week? That the customers come in companies and leave the same way? You've guessed it, it's the barber shop at the Ohio penitentiary, occupying the second floor of the building in which the deputy warden's office is situated and in charge of Guard C. F. Achauer. The tonsorial department is only one of the many innovations brought in by Warden P. E. Thomas, which is saving the state thousands of dollars. Here the prisoners are brought twice a week for a hair-cut, and so expert that the prisoners have become particularly fond of the service. Success in capturing these fugitives, Rowe will contend, is due to plans worked out during police association conventions. The Ohio association will take firm stand against the Anti-Violence league's effort to bring about the repeal of the present criminal service statutes, officers of the association declared.

How to Capture Auto Thief

Now best to pursue and capture the automobile thief is a question that promises to claim the attention of Ohio police department officials during the annual convention of the Ohio Police association, which opened with an informal reception at Cedar Point. Statistics will be presented during the meet by Chief of Police W. S. Rowe of Cleveland, which will show that the number of automobile thieves is gradually increasing. They will show that in Ohio the thief has a little show of getting away. Success in capturing these fugitives, Rowe will contend, is due to plans worked out during police association conventions. The Ohio association will take firm stand against the Anti-Violence league's effort to bring about the repeal of the present criminal service statutes, officers of the association declared.
